WORK EXPERIENCE

Backend Developer Intern — VNA Group

Dec 2025 — Feb 2026

- Contributed to the redevelopment of an Occupational Safety and Health (OSH) Reporting System using NestJS, PostgreSQL, Next.js, and MUI.
- Designed and implemented REST APIs for authentication, enterprise and account management, and OSH reporting workflows.
- Implemented role-based access control (RBAC) for Admin, Enterprise, and Department Authority roles.

PROJECTS

Servio — Multi-platform F&B Management & POS System

Mar 2026 — Present

Full-stack Developer | Team of 2

- Developed a multi-platform F&B management system with NestJS, Next.js, and React Native, covering POS, QR ordering, kitchen operations, invoicing, employee management, and reporting.
- Built backend features for multi-branch management, RBAC, branch-specific pricing, order processing, and authentication using NestJS, Prisma, and PostgreSQL.
- Implemented real-time kitchen/order updates using RabbitMQ and SSE, and supported offline mobile ordering with synchronization to prevent duplicate orders.
- Integrated DigitalOcean Spaces for product image storage and thermal printing via LAN/Bluetooth for receipts and table QR codes.

- Handled application deployments and releases, including backend deployment, frontend publishing on Cloudflare Pages, and Android/iOS production builds with Expo EAS.

Tech: NestJS, Next.js, React Native, TypeScript, PostgreSQL, Prisma, RabbitMQ, SSE, Docker, Cloudflare Pages, AWS S3, Expo/EAS
